2 speed settings
58 dBA
62 dBA

Motor power
850 W

Faster
Excels in daytime cleaning in busy offices, offering versatile settings to adapt to various cleaning needs.

Cleaner
Features a robust floor tool and Whizzo indicator for thorough cleaning and maintenance alerts.

Greener
Built with sturdy materials and filtration from standard to HEPA/ULPA.

Safer
Designed with a parking position for secure stair cleaning and shock-absorbing wheels.

Better for everyone
Crafted with user feedback, offering modern vacuuming solution that enhance efficiency.

Why the ⊙-vac 6 basic
is your choice:

Screws instead of rivets
All attachments are assembled with screws instead of rivets.

Parking position
For safe working on stairs.

Bag with lock
The 6-liter bag has a lock to prevent dust leakage and comes in either paper or microfiber options.

Paper bag
Two layers of paper and one layer of filter, absorbing moisture and extending motor life.

Detachable cable and motor
Quick replacements in just 30 seconds.

High filtration
Easily add a HEPA or ULPA filter at low cost.

1. Durable hose
With double extrusion for enhanced stability at both ends.

2. Telescopic wand

3. Two speed settings
Low sound setting for daytime power cleaning.

4. Self analysing light switch
Indicates that if the light is off, the cable is broken.

5. Robuust material
Durable and solid.

6. Odor system
Keeps the bag free from debris, preventing unnecessary spending on vacuum bags.

7. Whizzo
Paperbag full indicator.

8. Protective bumper
Absorbs impacts and protects the wheels for long-lasting performance.

M25.000059.02.EN - Subject to change.

⊙-vac 6 basic **special features:**

Detachable motor: Sustainable and easily replaceable.

The patented Whizzo indicator
Whistles when the bag is full.

The ULPA filter removes pathogens, allergens, and harmful particles.
