Eco-logical: essential, non-classified green cleaning liquids

Positioned alongside the i-hygienic range, our eco-logical range focuses on accessible low-cost solutions for routine applications, without compromising on safety, sustainability, or cleaning reliability.

With Eco-Logical, you don't have to choose between price and quality, you get both.

Most products in this range are certified on **Cradle to Cradle® Gold** level. The range also includes an NSF-certified Kitchen Cleaner for food-safe environments.

All packaging is bio-based, and our ready-to-use bottles feature durable, professional-grade triggers designed for intensive daily use. The triggers are equipped with a spray and foam function that can both be used 360°.

For the concentrated products in the 5-liter cans, a dosing pump is available separately for easy and controlled dispensing.

Eco-Logical proves that performance, safety, sustainability and affordability go hand in hand.

Where
hygiene standards
become **visible**

iL.3 flexdose
portable manual dosing

Daily cleaner for washrooms facilities. Effectively removes limescale, soap residue and daily soil. Leaves surfaces clean, fresh and hygienic. Developed for reliable daily maintenance of sinks, taps, tiles and shower areas.

dosing pump 10 ml
K.6.IH.DP

5L can
K.2.IL3.CA.5000

iL.4 easydose
ready to use

Daily cleaner for toilets and urinals. Removes soil, light limescale and unpleasant odors efficiently. Maintains a clean, fresh appearance between periodic descaling treatments. Developed for consistent professional maintenance.
