

carpet encapsulation cleaner

Ecological low-moisture carpet cleaner for brush or bonnet method. Freshly scented with powerful fiber-level cleaning. Contains active odor-neutralizing agents that bind and deactivate malodor molecules at the source. The encapsulation technology locks in residual contaminants, helping to prevent odor reactivation after drying and ensuring a longer-lasting fresh result. Leaves no residue and does not cause re-soiling. Safe for all colorfast carpets. Suitable to use in combination with ORBOT

Better

Optimized product for quick and targeted cleaning, saving time and effort.

Safer

Non-classified and safe to use without protective equipment. Where industry or site-specific safety guidelines recommend the use of protective equipment, i-hygienic advises adhering to those recommendations.

Greener

Plant-based formula and biobased 5L can result in a net carbon-negative impact.

Faster

Low-moisture process enables quick application and fast drying, minimizing downtime.

Cleaner

Penetrates fibers to lift soil; low-residue finish helps prevent re-soiling.

carpet encapsulation cleaner

Instructions for Use

Prepare the cleaning solution in a low-pressure sprayer according to the dosage instructions. Lightly mist the surface with the ready-to-use solution, then use a brush or bonnet method to distribute and work in the product. Allow the carpet to air dry completely. Once dry, vacuum thoroughly, preferably with a brush vacuum cleaner. For stubborn stains, pre-treat with i.62 carpet spot spray all-purpose.

Transport, Handling, and Storage

Non-classified product. No restrictions on handling, transport, or storage. See Safety Data Sheet (SDS) for detailed information.

Dosage

Dosing protocol	FlexDose
Packaging	Can
Standard min. dosing	25-100 ml on 5 ltr*

* The advised minimum dose applies to ORBOT and similar high quality cleaning equipment; traditional methods may require a higher dose.
