

i-fibreTM

MICROFIBER CLEANING SYSTEMS

The smarter way to clean.

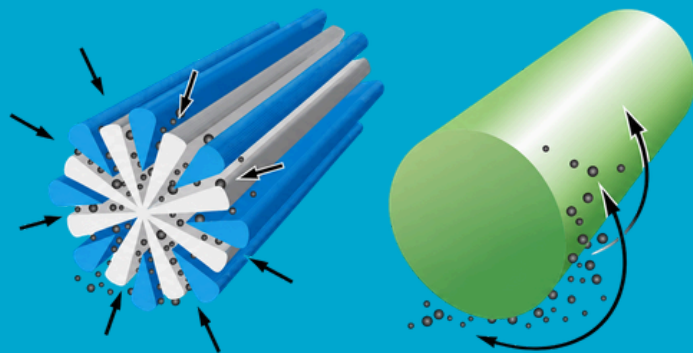

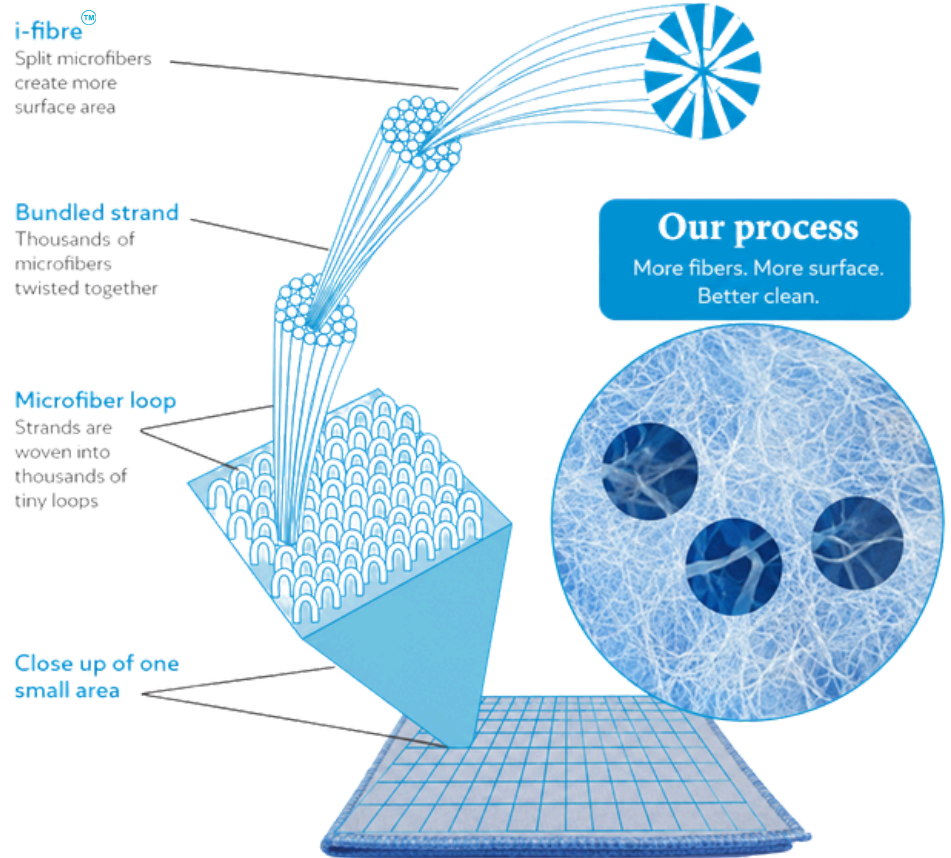

Inquire. Innovate. Inspire.

About Microfiber

What IS Microfiber?

Microfiber is a synthetic fibre made from polyester and polyamide, engineered to deliver superior cleaning performance. Under a microscope, the fibers feature a split, star-like structure that creates millions of tiny channels to capture and hold soil, bacteria, moisture, and cleaning solution. The i-fibre™ system combines advanced microfiber technology with innovative design to deliver faster, cleaner, greener, safer, and better cleaning results.

Microfiber

- Traps debris
- Captures particles inside split fibers
- Leaves less residue

Traditional Cotton

- Pushes debris across surfaces
- Absorbs into fibers
- Leaves residue

Microfiber vs. Traditional Cotton

Compared to traditional cotton, microfiber delivers superior cleaning performance, longer durability, and greater cost efficiency. Cotton absorbs liquids into the fiber, while microfiber's split-fiber technology captures and holds moisture, soil, and bacteria through millions of microscopic channels. This allows microfiber to clean more effectively and reduce cross-contamination. During laundering, trapped contaminants are released during rinse cycles, helping restore the fibers for consistent, high-performance cleaning, wash after wash.

Why i-fibre™?

Benefits

- Reduces water and chemical consumption up to 95%.
- Reduces bacteria up to 99.9%.
- Releases dirt and debris. When submerged in a rinse cycle or washed, the soil and bacteria are easily released, allowing for a cleaner and renewed surface.
- Environmentally friendly tools that reduce chemical and water consumption.
- Color-coded to help reduce cross-contamination.

BLUE SUITABLE FOR GENERAL LOW RISK AREAS	GREEN SUITABLE FOR GENERAL FOOD & BAR USE	RED SUITABLE FOR SANITARY FITTINGS & WASHROOM FLOORS	YELLOW SUITABLE FOR WASH BASINS & WASHROOM SURFACES
--	--	--	--

- Lightweight, ergonomic design reduces the risk of back, shoulder, and elbow injuries, thereby limiting workers' compensation claims.
- Improve indoor air quality and reduce dusting.
- Clean horizontal and vertical surfaces. Microfiber products are designed for use on walls and ceilings.
- Modular systems are customizable to fit virtually any situation.
- Systems pick up soil and remove it from the facility instead of spreading it around (traditional soil redistribution system).

i-fibre™

faster

Designed to clean more area in less time and improve productivity.

cleaner

Holds and traps dirt, debris, and bacteria instead of redistributing.

greener

Saves up to 95% of water and chemical usage.

safer

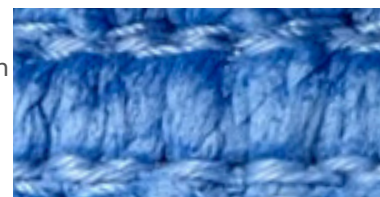

Improves hygiene and reduces cross-contamination.

better

Delivers superior pickup and longer-lasting performance.

Quad Cross-Loop Stitching-
Durable, lasts longer through more wash cycles, user application, and a better looking product lifetime.

Mesh Backing-

Pre-Treats mops and pads in seconds, which also allows dirt and soil to easily wash through both sides and reduce laundry cost and BTU's by up to 60%.

Debris Channels-

Uniquely designed areas trap and hold more soil, helping to improve productivity.

Microscope Microfiber Comparison

Competitor Microfiber

- Non-Woven
- Non-Uniform
- 12-16 μ fibres
- Randomly Fibrillated

i-team i-fibre™

- Woven
- Highly Uniform
- 5.5 μ fibres
- Fibrillated

PRO Series Cleaning Kits

i-Classroom

Includes 1 ea: iMINI XL (PTBUCKET blue, PTMINI blue & gray), iHANDLE72, iPOCKET, iHANDLE48, WALLWASH, TROWEL, ANTA125Y, FLEXWAVE. 12 ea: IWAVE18PB, WAVETROWELB9, MCLOTHB. 6 ea: SNOWTROWELB9

i-Cafeteria

Includes 1 ea: iMINI XL (PTBUCKET green, PTMINI green & gray), iHANDLE72, iPOCKET, iHANDLE48, WALLWASH, TROWEL, ANTA125Y, FLEXWAVE. 12 ea: iWAVE18PG, WAVETROWELB9, MCLOTHG. 6 ea: SNOWTROWELB9

i-Restroom

Includes 1 ea: iMINI XL (PTBUCKET red, PTMINI red & gray), iHANDLE72, iPOCKET, iHANDLE48, TROWEL, WALLWASH, WAVETROWELB9, ANTA125Y. 12 ea: iWAVE18PR, WAVETROWELB9, MCLOTHR. 6 ea: SNOWTROWELB9

i-Patient

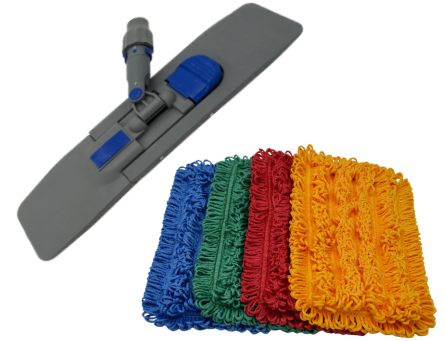

Includes 1 ea: iMINI XL (PTBUCKET blue, PTMINI blue & gray), iHANDLE72, iPOCKET, iHANDLE48, WALLWASH, TROWEL, ANTA125Y, FLEXWAVE. 12 ea: iWAVE18PB, WAVETROWELB9, MF12BLU

i-fibre™ Product Introduction

iMini XXL Cart

- Compact, lightweight cart designed for easy maneuverability in tight spaces
- Complete cleaning system with organized storage for efficient workflows
- Divided, coated laundry bag for soiled mops and cloths with additional side storage pockets
- Storage for up to 5 upright mop handles and hooks for wet floor signs
- Durable metal cart with fixed rear wheels and front casters for stability and mobility
- Includes self-sealing bucket system: two 3.5-gallon buckets and two 6-gallon buckets
- Rear soiled laundry bag included for convenient waste separation

Pocket Systems

- Pre-treated microfiber pocket system for improved hygiene and cleaning performance
- Pocket design allows microfiber pads to be changed without touching soiled material.
- Increases productivity while extending the microfiber pad's lifespan
- Flexible base and 360° design allow cleaning of curved and hard-to-reach surfaces
- Construction guaranteed for up to 1,000 washings for long-lasting durability

Looped-End Tube Mops

- 5" Scrubber headband removes marks on the floor
- Tailband keeps tubes in place for a wide cleaning path
- Tubular microfiber construction for picking up heavy soil loads

Duo Buckets

- Heavy-duty construction
- Solid wall divider for no leaking
- Works with flat TAB mops or tube/string mops
- Solid and Durable manufactured material made to outlast competitor buckets
- Wide vinyl caster wheels and a ball bearing core mean smooth, gliding maneuverability

iCart

- 1 Roto-molded base with casters
- 2 locking drawers
- 1 90-degree upper front shelf
- 1 45-degree lower front shelf
- 1 push handle, with vacuum and duster holder
- 1 heavy-duty storage bag with multiple zippers

Finish Bucket

- 6 Gallon polypropylene bucket
- Lid seals air-tight to allow for less waste and continue projects for several days
- Removable flat press for easy access
- PVC casters to move around more easily
- Built-in drain plug for efficient emptying
- Handle holder for accessible organization

i-fibre™ Products

Microfiber Cloths (250/300g)

- 12" and 16" Options
- General multipurpose cloths
- 288/case

Microfiber Cloths (300g)

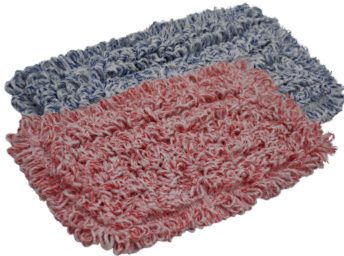

- 16" x 16"
- General multipurpose cloths and glass cleaning options
- 288/case

Pro Series i-Double

- 8" x 10", 400g
- Heavy-duty split microfiber and fine non-streak microfiber
- 192/case

Hook Mops (12 inch)

- Up to 700 washes
- Hook and loop backing
- Fits WallWash and Trowel
- Glass, Scrub, and Snow

Hook Mops (18 inch)

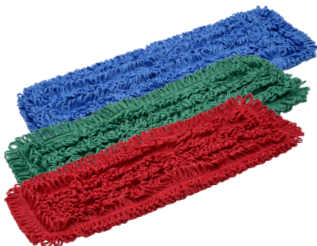

- Up to 700 washes
- i-split microfiber
- Hook and loop backing
- Double Stitching for durability

iWave (12 & 18 inch)

- Up to 700 washes
- i-split microfiber
- Mesh Pocket Backing
- Double Stitching for durability

Tab Mops (18 inch)

- Up to 700 washes
- i-split microfiber
- TAB backing
- Double Stitching for durability
- Available in Snow

Pro Series Microfiber Dusters

- FlexWave, Wave, WaveDust2, WaveDustHead
- Flexible design adapts to irregular surfaces
- Captures dust and debris
- Ideal for vents, ledges, corners, and overhead areas

Pro Series Dust Mops

- Available in 18", 24", 36", 48", 60", and 72"
- Microfiber dust mop with debris channel

i-fibre™ Products

Tab Frame

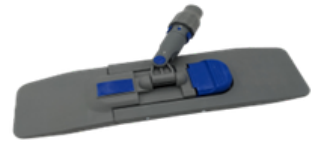

- Plastic frame with swivel
- Hands-free release system

Hook Frame

- Plastic frame with swivel
- Removeable hook and loop strips

Pocket Frame

- Lightweight, hygienic mopping
- Hands-free quick-release system

Wall Wash & Trowel

- Hook and loop
- Efficient cleaning of vertical and detailed surfaces
- Flexible swivel head
- Lightweight construction reduces operator fatigue

i-Fibre™ Classic & Pro

- Bucketless mop system
- Fan-shaped cleaning spray
- Ergonomic design
- Comfortable grip, easy to maneuver

i-Dose

- Pre-measured pods eliminate guesswork and speed up cleaning.
- Three formulas: daily cleaning, restrooms, and degreasing.

iMini

- 2-6-gallon buckets with lids
- 2 wet floor sign holders
- 5 position handle holder
- Fixed wheels

Pro Series iMini XL

- Six-gallon bucket with lid
- 2-3.5 gallon buckets with lids
- 2 wet floor signs
- Caster wheels, divided soil bag, 5 position handle holder

Microsmart

- Automated System
- Semi-portable washing machine
- Simple single water line hook-up
- Built-in automatic shut-off safety feature
