450 W

Why ⊙-vac 9b?

Faster
The 2 i-power 14 batteries guarantee a longer runtime than any other cordless vacuum cleaner.

Cleaner
Dual filtration captures dust, bacteria, and allergens, improving indoor air quality with cartridge and cassette filters.

Greener
Easily replaceable parts and 40% less energy consumption than corded vacuums extend product life sustainably.

Safer
Cordless design eliminates tripping hazards, ensuring safer cleaning operations.

Better for everyone
Impresses with mobility, design, and powerful performance, promoting a cleaner, healthier environment.

Why the ⊙-vac 9b
is your choice:

Ultimate flexibility
Without the hassle of plugging in or replacing broken cables!

Big and powerfull
Ideal for large spaces.

Paper bag
Features two layers of paper and one layer of filter, absorbing moisture and extending motor life.

High filtration
Easily add a HEPA or ULPA filter at low cost.

Screws instead of rivets
All attachments are assembled with screws instead of rivets.

Optional i-brush
Simultaneously agitates the carpet and removes dirt and dust.

1. Plug and play battery system
Choose the i-power battery that fits your needs: 9, 12, or 14.

2. High powered engine
Reaches about 80% (indication) of the suction power that cable operated vacuums use.

3. Protective bumper
Absorbs impacts and protects the wheels for long-lasting performance.

M24.000029.01.EN - Subject to change.

⊙-vac 9b **special features:**

24/7 runtime, continuous charging capability for non-stop performance.

The ULPA filter removes pathogens, allergens, and harmful particles.

Optional i-brush available.
