

co-botic™ 1900 Pro

Smart autonomous vacuuming

Scheduled cleaning without interruptions

The co-botic 1900 Pro can be scheduled to vacuum overnight, so cleaning happens off-hours and daytime activities stay undisturbed. Once finished, it returns to its charging station, recharges automatically, and is ready for the next run. A smart choice for consistent results with minimal manual effort.

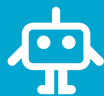

Product benefits

Relieves cleaners of physical strain

Less emission of dust, bacteria & allergens

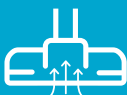

Robotic: frees up time

Technical specifications

Runtime
up to 4h
with 2x i-power 8.7
up to 5h
with 2x i-power 10.5

Suction power
3 speeds:
4, 8 and 20 KPA

Capacity
2L

Faster

Vacuums autonomously on a schedule, with automatic docking and charging to free up time for other tasks.

Cleaner

Industrial-grade suction and self-leveling brushes for consistent and excellent results.

Greener

Eco-mode delivers energy-efficient operation, while smart docking and charging help minimize unnecessary power use.

Safer

Autonomous vacuuming reduces body strain on the operator, while the anti-microbial dust bin with HEPA 11 filtration helps reduce emissions.

Better for everyone

Cleans on schedule and recharges hands-free, keeping routines consistent and teams focused.

Why the co-botic 1900 Pro is your choice:

Strong suction power

For fast and thorough vacuuming.

WiFi and 4G SIM

Easy to connect.

Built-in speaker

Anti-collision warning.

1. Dust box

2L anti-mold dust bin with HEPA filter.

2. Handle

Easy to pick up and carry.

3. Laser navigation

Precise mapping and easy map management.

4. Swappable batteries

Easy to exchange and keep working.

5. Emergency stop button

For extra safety.

6. Cable detection sensor

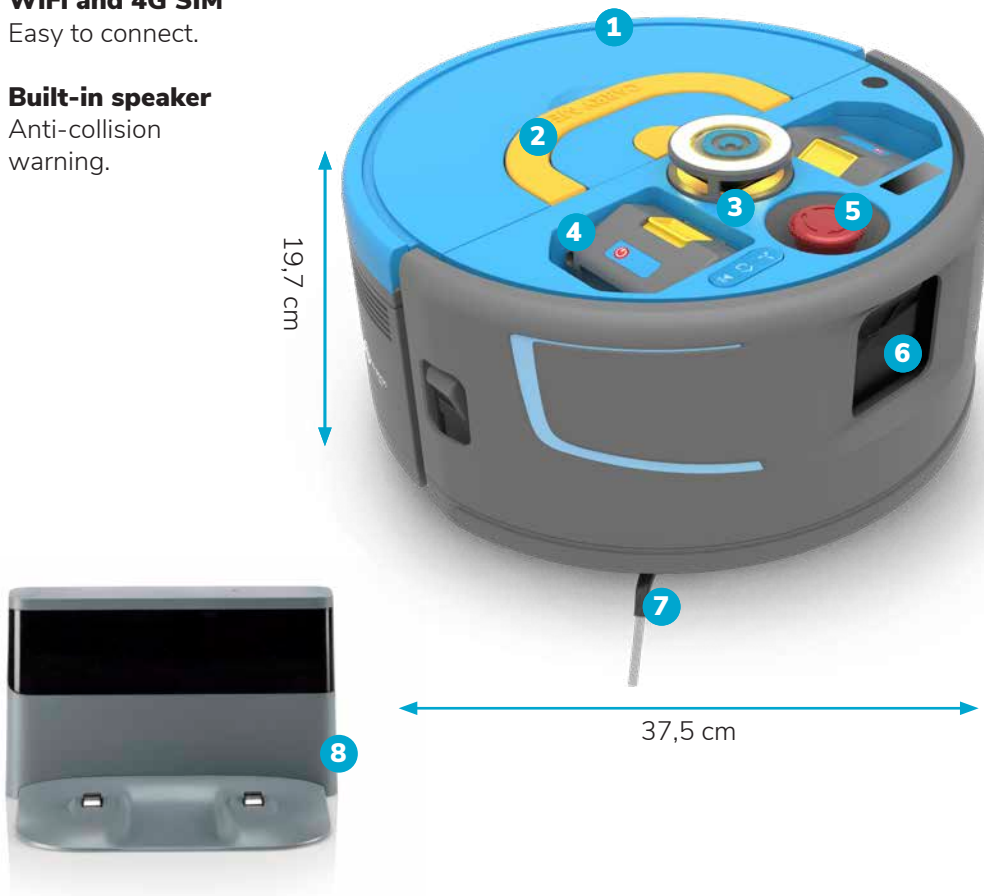

To avoid cables and obstacles.

7. Rotating side brush

For edge cleaning.

8. Charging station

The home base for automatic docking and recharging between runs.

M26.000128.01.EN - Subject to change.

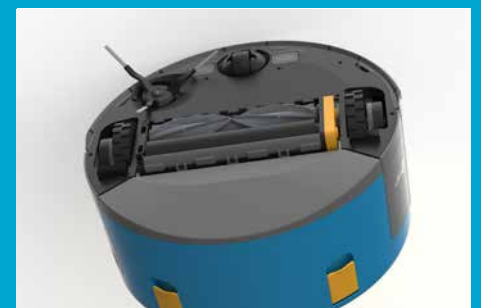

Co-botic 1900 special features:

Rechargeable and swappable batteries.

Laser based navigation and sensing for precision.

Springloaded dual brush for perfect cleaning, also uneven floors.
