i-team

i-escalate 520

Save on maintenance and repair costs of escalators with **the i-escalate**

Irregular cleaning is the #1 reason for issues with escalators, leading to downtime and high repair costs. From now on, you can easily clean escalators yourself. It is no longer too expensive, time-consuming or complicated.

Perfect match with the imop Lite and the i-remove mini.

Technical specifications

Power station
1500 Watt

Water usage
<1 gal/hour

Cleans 65 steps
in 4 minutes

Why i-escalate?

Faster
Cleans a 65-step escalator in just 4 mins: much faster than existing machines.

Cleaner
The unique brushes get deep into the grooves for the cleanest results.

Greener
No need for harsh chemicals, use i-dose id.5 for eco-friendly cleaning.

Safer
No need for cables on the floor with a 1500 Wh power station on board.

Better for everyone
Easily operated and moved by one person, with minimal disruption to others.

Why the i-escalate
