

Nonfood Compounds
A1

kitchen cleaner / degreaser

Ecological daily degreasing, unscented kitchen cleaner. Ideal for cleaning all surfaces in areas where food is handled, such as horeca, large kitchens, and food production areas. Also suitable for cleaning floors, walls, workbenches, tables, and machines. NSF-certified: Nonfood Compounds A1.

Standard min. dosing	50-150ml on 5ltr
----------------------	------------------

Instructions for Use

Prepare the cleaning solution according to the dosage instructions. The prepared cleaning solution can be applied directly onto the surface. Allow it to work for 1–5 minutes. For stubborn dirt, apply generously and loosen with a sponge or brush. Wipe off with a clean, damp cloth and let the surface air dry. For surfaces in direct contact with food, rinse afterward with clean water.

Transport, Handling, and Storage

Non-classified product. No restrictions on handling, transport, or storage. See Safety Data Sheet (SDS) for detailed information.

Specifications

Packaging (CU)	Can
Content	5L / 2 BU
