i-bin hygiene¹⁵

The revolutionary sanitary bin

 *i-giene*[®]

- Integrated waste stream**
 i-bin seamlessly integrates with Europe's and UK's regular black bin waste stream, simplifying disposal.
- Damage prevention**
 Unlike mobile models, i-bin is a fixed fixture, preventing room damage and aiding cleaning.
- Accessible cleaning**
 Its design allows easy cleaning underneath, suitable for monumental buildings.
- Intelligent monitoring**
 Equipped with sensors, i-bin provides real-time data to cleaning service providers for efficient planning.
- Delightful fragrance**
 Enhance restroom experiences by adding i-scent for a fresh and welcoming ambiance.
- Digital integration (i-bin Pro)**
 i-bin offers a digital solution through a smartphone app or API integration, enhancing convenience.

CO₂ REDUCTION

Up to 236,000 grams less CO₂ emissions annually by eliminating energy-intensive practices and streamlining logistics.

COST REDUCTION

One-time purchase cost for the unit and a modest monthly foil expense. Achieve break-even in 18 months.
