

i-fibre Classic & Pro

Save water, chemicals and time with i-fibre Classic & Pro

Innovative rods for i-fibre

The i-fibre Classic & Pro handles, combined with our advanced microfiber cloths, offer an ergonomic and efficient solution for all hard surfaces. The densely packed fibers trap moisture, soil, and bacteria, boosting productivity while reducing water and chemical use, helping maintain a healthier environment.

Removes up to 99.9%
of bacteria from surfaces
without using chemicals.

dosage**

Why i-fibre?

Faster

You can add your detergent and water on the go, which saves a lot of walking to a bucket.

Cleaner

The pre-treating system ensures an efficient and productive cleaning process.

Greener

With the pre-treating system, you save up to 95% water and cleaning agents.

Safer

The comfortable rubber grip reduces hand strain.

Better for everyone

Superior cleaning results, less physical strain on the cleaner and faster by tank on board.

Why the i-fibre is your choice:

i-fibre Classic

i-fibre Pro

Microfibre pads

sold separately, one blue pad is included.

1. Ergonomic handle

Provides a comfortable grip, making it easy to maneuver.

2. Cleaning spray

Press the yellow lever to spray the cleaning solution on the floor.

3. Integrated i-dose capsules (pro version)

Always use the perfect amount of detergent: never too much or too little.

4. Water tank capacity

500-650 ml

5. Quick release in the frame

For a complete touch-free cleaning operation.

6. i-fibre cloth

Maximum cleaning power because of the patented trio split technology.
