handles

Technical specifications

Weight wired
13,5 kg
Battery version
14,4 kg

Orbital speed
1650 RPM

Why i-scrub 30EM Pro?

Faster

Heavy grade aluminum diecast housing adds increased brush pressure. Clean more in less time.

Cleaner

Advanced orbital movement at 1650 RPM gives a movement with no sideforces.

Greener

The water tank on top ensures you can mix in your chemicals to perfection.

Safer

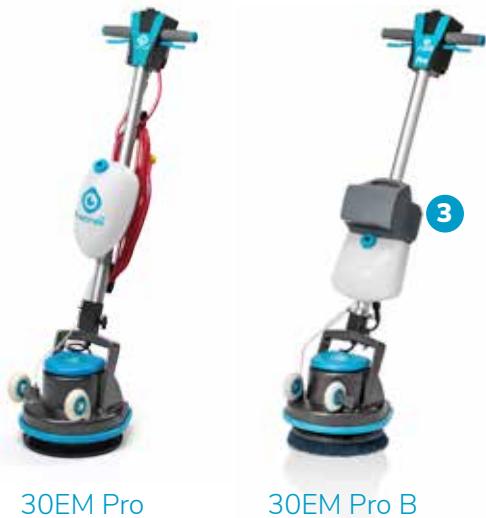

The sealed cover design protects the engine from exposure to water. Adds an extra protective layer.

Better for everyone

The soft grips of the machine guarantee superb control and excellent ergonomics for the user.

Why the i-scrub 30EM Pro B is your choice:

30EM Pro

30EM Pro B

Single-disc scrubbing

Orbital movement with no sideforces, everybody can operate it without training.

Cord or cordless?

The battery-powered i-scrub 30 EM gives you flexibility to use it when and where you want to.

Quick release handle

Change the length of the handles to suit the work conditions.

The long handles can be used to move over obstacles.

1. Centralized controls

Actions, switches and controls are within the reach of your fingertips

2. Tank

The solution tank is easily detached with a single pull

3. Battery (Pro B)

With only one extra i-power battery you can work 24/7

4. Closed off cover

The sealed cover design protects the engine from exposure to water

5. Aluminum diecast

Heavy grade aluminum diecast housing adds resistance and weight to the machine

6. Pad holder

Attach a brush, pad, bonnet, or sand screen within seconds
