Runtime
2,5 h
6x i-power 14

Practical cleaning
coverage
2,060m²/h

Driving speed
5.5 km/h

Why i-drive?

Faster

Quickly navigate tight spaces with a 1.6m turning radius and refill your imop Lite on the go.

Cleaner

Combines large area cleaning with an imop Lite for detailed tasks. Ensures no spot is missed.

Greener

Uses less water and detergents with sustainable batteries that enable 24/7 operation.

Safer

Clear front view, safety lights, and automatic brush retraction ensure safe operation, even in the dark.

Better for everyone

Clean both large and small spaces efficiently, with added comfort and maneuverability.

Why the i-drive is your choice:

The best of both worlds

Carries an imop on its back, making it perfect for both large area and detail cleaning work.

Cleans large spaces faster

Less water consumption compared to standard scrubbers

Clear front view while driving

Operator has time to rest while cleaning

Base-mounted lights for cleaning dark spaces

1. Easy operation

Self-explanatory icons and a simple control panel. Activate brushes and vacuum system with one button.

2. Auto shut-off fill system

Shuts off at the fill line, preventing water from splashing or dripping into battery compartments.

3. Hidden safe locker

To store your wallet or phone.

4. Adjustable pedal

Easily positioned to meet the driver's exact requirements.

5. i-power 20 battery drawer

Enjoy 2.5 hours of cleaning with two battery sets that allow you to charge one while using the other.

6. Easy to remove squeegee

7. In reverse

The squeegee and brushes retract automatically during backup and driving.

M24.000064.01.EN - Subject to change.

i-drive special features:

Easily remove the squeegee with the push of a button.

The ramp can be rapidly assembled for loading and unloading.

Rear wheels operate on the dried floor for enhanced safety.
