

co-botic™ 1700

Teamwork makes the dream work

A human-robot collaboration

The co-botic 1700 is the ultimate robotic vacuum cleaner, that works together with the human cleaner.

Savings per 300 m² vs. manual cleaning

Power
90%

Time
99 min.

Effort
0

Technical specifications

Run time
270 min.

Practical
performance
up to 90m²/h

Faster

Works autonomously for up to 270 minutes, freeing up time for other tasks.

Cleaner

Set instructions using the app to ensure highly efficient cleaning.

Greener

Consumes only 50W per hour, compared to 750W for manual vacuum cleaners.

Safer

Less emission of dust, bacteria and allergens due to dust bin with HEPA filter.

Better for everyone

Maximizes cleaning results by combining co-botic power with human expertise.

Why the co-botic 1700 is your choice:

Strong suction power

For fast and thorough vacuuming.

Flexible operating modes

Drop & Go: place it anywhere in the room and press start.

Standard: starts the route from the charging station.

1. App-controlled navigation

Compatible with Fieldbots and co-botics™ app.

2. Charging station

Charges the co-botic.

3. Infrared sensors

Ensures precise obstacle detection.

4. Dustbin with HEPA filter

Integrated dust collector.

M25.000012.02.EN - Subject to change.

co-botic 1700 special features:

Cleans hard and soft floors autonomously.

Charging trolley powered by plug or battery.

Create a map of your spaces within minutes.
