**Once again,  
we change the way  
you think about  
cleaning.**

Because it's not just  
about cleaning,  
it's also about the  
well-being of people  
and the planet we live on.

This catalog represents the outcome of the collaboration between i-hygienic and i-team Global, a fusion of sustainable cleaning liquids and technological innovation. From our headquarters in Eindhoven, we support our global family with smart, ergonomic and sustainable cleaning solutions to empower cleaning professionals.

So, we now offer advanced hygiene products that prioritize health, safety, and efficiency. It reflects our commitment to cleaner, greener, and safer environments. Whether you're a cleaner, a buyer, or a business owner, there is always an i-hygienic solution tailored to your needs, available through our specialized channels and supported by the trusted i-team network.

i-hygienic offers a full range of plant-based cleaning liquids that exceed or match the performance of traditional petroleum-based products. They are non-classified, skin-friendly and carbon-negative.

These products are therefore not only better for our planet but most certainly also for the people that populate it.

We  
believe  
less is  
more.

No overlapping  
products.

No complicated  
choices.

## Core values

---

Our cleaning solutions are carefully developed around three core values:

### **Effectiveness**

Intelligent, efficient formulas with proven results.

### **Safety**

Non classified, no PPE required, healthy for people and the planet.

### **Sustainability**

Minimal environmental impact, maximum responsibility.

## Product range

---

Our products are organized into ten clear categories. This structure makes it easy to find the right cleaning solution without getting lost in endless options.

Each category includes daily cleaners for the general cleaning of surfaces and floors, designed for reliable everyday use. The range also includes daily cleaners developed for specific purposes, offering a more precise solution when a task requires focused performance.

For tougher challenges, we offer extra high-performance formulas.

These solutions are designed to tackle stubborn dirt and deliver powerful deep-cleaning results. One category is dedicated to troubleshooters and specials. These are our “specialists in a bottle,” created to solve unique and demanding cleaning problems when standard solutions are not enough.

## Smart dosing protocols

---

Every cleaning environment is different. That's why we offer three smart dosing protocols across all categories to ensure the right balance between efficiency, ease of use and optimal portion control.

**autodose ultra** – automatic dispenser dosing

Our autodose ultra concentrates are dispensed automatically and accurately via wall mounted dosing systems. Controlled protocols for the ultimate results.

**flexdose and flexdose ultra** – portable manual dosing

flexdose (high concentrates) and flexdose ultra (ultra concentrates) provide precision in your hands by enabling manual dosing with an integrated dosing cap or pump, combining flexibility with controlled dosing.

**easydose** – ready-to-use dosing

Pre-dosed, safe, and immediately ready for use. Fast, simple and effective.

Always the right solution available.

## Sustainably produced

---

We produce totally sustainable and are therefore very proud to be certified for a number of products on **Cradle to Cradle Certified® Gold** level and **EU Ecolabel**. If a product is certified on Cradle to Cradle Certified® Gold level it meets the highest standards for environmental and social responsibility across five categories:

- material health
- product circularity
- clean air and climate protection
- water and soil stewardship
- social fairness

A product with the EU Ecolabel meets strict environmental and performance standards throughout its entire life cycle. From the moment the raw materials are sourced to the end of the product's life cycle. It ensures reduced environmental impact, high efficiency, and verified safety for people and planet.

We are currently in the process of getting all our products Cradle to Cradle and EU Ecolabel certified. We expect the majority of our product range to be certified during 2026-2027.

### NSF compliant kitchen cleaners

---

Several of our kitchen cleaners are NSF Nonfood Compounds A1 compliant meaning they meet the strict public health and safety standards set by NSF International and have been tested for quality, safety and performance.

### Classification free products

---

Nearly all of our cleaning solutions are **classification-free**, meaning:

- No personal protective equipment needed
- No hazard symbols on labels
- No transport restrictions
- No special storage requirements

### With i-hygienic, you choose purposeful simplicity.

No unnecessary choices, just the certainty of effective, safe and sustainable cleaning solutions. - **Love nature, clean green**

**K.6.I1.DB.2000 \***

1L dispensing bottle  
**K.6.I1.DB.1000**

**easydose**  
ready to use

750ml spray bottle  
**K.6.I1.DB.750**

# troubleshooters and specials

## i.9 odor control probiotic

A refreshing spray that permanently eliminates unpleasant odors; thanks to probiotic ingredients, it actively targets the source of the odor and removes it through a self-continuing cleaning effect.

easydose  
ready to use

750ml spray bottle  
K.6.I9.SB.750

200ml alu-air  
K.24.I9.AA.200

## i.91 screen cleaner

Contains special ingredients that ensure a streak-free result and make surfaces anti-static to prevent re-contamination.

easydose  
ready to use

200ml alu-air  
K.24.I91.AA.200

## i.92 whiteboard cleaner

Contains special ingredients that ensure a bright-white, streak-free result and effectively remove all whiteboard marker haze and stains.

easydose  
ready to use

200ml alu-air  
K.24.I92.AA.200

# troubleshooters and specials

## i.95 whiteboard renovator

For the thorough cleaning of heavily marked whiteboards. Effectively removes permanent marker and dried ink residues that cannot be removed with standard whiteboard cleaners.

easydose  
ready to use

200ml alu-air  
K.24.I95.AA.200

## iW.10 i-bamboo dry wipes

Bamboo wipes for safe and effective cleaning of whiteboards. Applicable in combination with i.92 whiteboard cleaner and/ or i.95 whiteboard renovator.

flexdose  
portable  
manual dosing

50 wipes can  
K.12.IW10.CS.50

## iW.91 screen cleaner wipes

Pre-moistened viscose wipes for safe and effective cleaning of screens. Suitable for monitors, laptops, tablets, smartphones, and televisions.

easydose  
ready to use

200 wipes can  
K.12.IW91.CS.200

# troubleshooters and specials

## iW.92 white board cleaner wipes

Pre-moistened bamboo wipes for the daily cleaning of whiteboards. Effortlessly removes traces of whiteboard markers, fingerprints, dust, and dirt.

easydose  
ready to use

50 wipes can  
**K.12.IW92.CS.50**

## iW.95 white board renovator wipes

Powerful pre-moistened bamboo wipes for the thorough cleaning of whiteboards. Ideal for removing stubborn dirt, ingrained ink, and permanent markers.

easydose  
ready to use

50 wipes can

# troubleshooters and specials

## i.93 grout cleaner

With special ingredients that are highly effective at removing deposits and stains caused by mold, weather, and moisture.

easydose  
ready to use

750ml spray bottle  
**K.6.I93.SB.750**

## i.94 graffiti and ink remover

Removes spray paint, varnish, and ink from all washable, smooth surfaces.

easydose  
ready to use

750ml spray bottle  
**K.6.I94.SB.750**

## i.96 glue residue remover

Removes stickers, signage, adhesive, and sealant residues.

easydose  
ready to use

200ml alu-air  
**K.24.I96.AA.200**

# troubleshooters and specials

## i.99 plastic renovator and cleaner

For cleaning, caring for, and protecting almost all plastic surfaces; leaves an even, dirt-repellent layer and restores the original color of discolored or weathered dark plastic.

200ml alu-air  
K.24.I99.AA.200

## i.97 rust remover

Reverses the corrosion process that causes rust.

750ml spray bottle  
K.6.I97.SB.750

## i.98 industrial degreaser

Contains special ingredients that ensure the effective removal of organic and mineral grease, oil, and fatty contaminants.

200ml alu-air  
K.24.I98.AA.200

# troubleshooters and specials

## iG.84 patio cleaner

Removes outdoor deposits and atmospheric soil.

5L can  
K.2.IG84.CA.5000

750ml spray bottle  
K.6.IG84.SB.750

## iG.85 patio cleaner

A highly concentrated cleaner that removes outdoor deposits and atmospheric soil.

5L can  
K.2.IG85.CA.5000

## iG.88 stone protect hydrophobic

An impregnating agent with a water-repellent, vapor-permeable effect that provides pore-deep protection for natural stone, concrete, and ceramic surfaces.

5L can  
K.2.IG88.CA.5000

# Meet our smart dosing systems.

Prevents overdosing,  
reduces costs while  
ensuring consistent,  
professional  
cleaning results.

## ecoshot dispensing systems

Ecoshot dispensers work without a water connection. Flexible and easy to place anywhere. The dispenser doses the exact preset amount of cleaning concentrate. First fill the bucket or spray bottle with water than add cleaning concentrate.

Available in three versions:

### ecoshot spray bottle

For filling spray bottles

Dispenser set  
**K.1.IH.ES.SB**

### ecoshot short spout

For filling buckets in the sink

Dispenser set  
**K.1.IH.ES.BUS**

### ecoshot long spout

For filling buckets on the floor

Dispenser set  
**K.1.IH.ES.BUL**

# ecomix dispensing systems

Ecomix can be equipped with one dispenser for cleaning **concentrate**. The system automatically mixes concentrate and water into the correct ready-to-use solution.

Available in two versions:

## ecomix spray bottle

For filling spray bottles

Dispenser set  
**K.1.IH.EM.SB**

## ecomix bucket

For filling buckets

Dispenser set  
**K.1.IH.EM.BU**

# ecomulti dispensing systems

Ecomulti can be equipped with up to four refill stations for **cleaning concentrate**. The system automatically mixes concentrate and water into the correct ready-to-use solution.

Available in two versions:

## ecomulti spray bottle

For filling spray bottles

Dispenser  
**K.1.IH.ET.SB**

## ecomulti bucket

For filling buckets

Dispenser  
**K.1.IH.ET.BU**

## Refill station suitable for 1800ml pouch

The number of dispensers required must be ordered separately. Max 4 to connect.

Refill station  
**K.1.IH.RS**

# dispensing accessories - autodose ultra

## color rings

The refill station K.1.IH.RS is supplied with a standard gray ring. Optional rings are available in red (sanitary), blue (interior), green (floor), and yellow (kitchen). This makes it easy to identify which cleaner is in which dispenser.

Color ring  
**K.1.IH.RG.R**

Color ring  
**K.1.IH.RG.B**

Color ring  
**K.1.IH.RG.G**

Color ring  
**K.1.IH.RG.Y**

## refill spray bottles

For use with all dispenser systems.

sanitary cleaner refill  
750ml spray bottle

# IQ-link

The intelligent choice for professional dishwashing and laundry.

Product use, costs, and performance controlled by one smart, web-connected platform.

IQ-link  
K.1.IH.IQ

## Key Features

Plug-and-Play Simplicity	Pre-set and easy to install, IQ-Link connects seamlessly to almost any laundry or dishwashing machine, saving set-up time and service costs.
Precision Dosing with Flow Measurement	Continuous flow monitoring guarantees accuracy, prevents overdosing, and ensures consistent cleaning performance. Save up to 25% on product use by preventing overdosing.
Real-Time Insights	Access live data on machine status, product consumption, and operational costs via your personal, web-based monitoring tool.
Remote Adjustments Anytime, Anywhere	Dosing levels and settings can be modified instantly online, reducing downtime and eliminating the need for on-site interventions.

## Operational Benefits

Lower Service Costs	Remote troubleshooting and calibration mean fewer technician visits and reduced maintenance budgets.
Higher Uptime	Instant detection of dosing or machine issues minimizes disruption and ensures continuous operation.
Efficient Operations	Faster response to complaints or deviations, without waiting for physical service calls.

## Sustainability Impact

Less travel, lower emissions	Online monitoring avoids unnecessary site visits, significantly reducing CO <sub>2</sub> emissions.
Reduced product waste	Precision dosing means every drop is used effectively.
Lower water & energy use	Stable dosing supports efficient machine cycles, improving energy and water efficiency.
Compliance-Ready	Smarter reporting makes it easier to meet environmental and safety standards, preparing your business for future regulations.
Smarter, greener, more efficient	Digital monitoring reduces environmental footprint while ensuring operational excellence.
